Appreciative Relationships:  
Re-Claiming Your Inner Wealth

## WORKSHOP:

# Appreciative Relationships: Re-Claiming Your Inner Wealth

Each of us has within our life stories, boundless well-springs of wisdom, inspiration, vision, talent and even brilliance. These resources often remain dormant, unclaimed and seemingly lost to us.

This experiential workshop is about re-searching your personal narrative and re-examining your personal narrative through the eyes of appreciative witnesses.

Enlightening the Heart is about re-illuminating ourselves, making contact with our inner brilliance and appreciating the personal assets that we contain within us that we can draw upon to become who we most deeply long and aspire to being.
